Key Stage 3 Science Study Guide 2022/2023

Dear Parent/Guardian,

The Science department is offering an opportunity to purchase a reduced price **Study guide** for students studying in year 7 Science.

We have selected a guide from CGP as they have a specific book that covers the syllabus content for the whole of Key Stage 3. The entire course is explained clearly and concisely, math's skills and advice on Working Scientifically.

There are also practice questions at the end of each page to test students on what they have learned (with step-by-step answers at the back).

Key Stage 3 students will require one Study guide that will cover all science concepts for year 7, 8 and 9. The Key Stage 3 study guide costs **£3.20 including parent pay fee** (RRP £4.95).

The guides will be in stock in October and we would aim to distribute them after half term so that students can use them as a homework and in class tool throughout the school year.

Please order them by **Friday 14th October 2022** to avoid disappointment, as the department will only place one order this year.

If you would like to purchase a book but need financial assistance with this, please contact me in confidence by email: nmclellan@theangmeringschool.co.uk.

Ordering and payment can be made via **parent pay**, which can be accessed via the homepage on the school website. Please note that we are unable to accept cash payments for books in the science department, therefore if you have problems accessing and paying via the parent pay website, please contact Finance at the school on 01903 778367.

The Study guides will be available shortly after the half term and will be given to your child via the Science department.

Yours sincerely,

Miss N McLellan

KS3 Science Coordinator
