Dear «Parental_Salutation»

RE: «PreferredFirstName» «PreferredLastName» «StudentTutorGroup»

I am now in a position to confirm your child's subjects for Year 10 2023/2024.

In addition to studying English, Maths, Science, PE and Insight, they will also study the four subjects below:

Subject Choices for «PreferredFirstName» «PreferredLastName»
«Option_choice_1»
«Option_choice_2»
«Option_choice_3»
«Option_choice_4»

This is a good opportunity to think ahead with your child about Years 10 and 11 and talk about how school will be different when studying for public examinations. It also gives an opportunity to encourage your child to make the most of the final weeks and months of Year 9 in order that they make a flying start to their year 10 courses. In fact, many subjects will already be beginning to deliver and practice GCSE level work to build readiness for the autumn term.

I'd like to thank you for supporting your child with their decisions and helping us complete the subject choices process so efficiently. The subject choices information remains on the website should you wish to revisit it for any specifics relating to subjects chosen.

Alternatively, if you have any further questions about your child's subject choices, please contact Mrs Hook and Mrs Wallbridge as soon as possible on the email addresses below. It is best that we resolve all problems at this stage to avoid interrupting the start of courses in September and so that students are fully prepared and committed to the 2 years of study ahead in each of their key stage four subjects. This is in the understanding that they must complete all courses once they are started in year 10.
