The Empowerment Curriculum

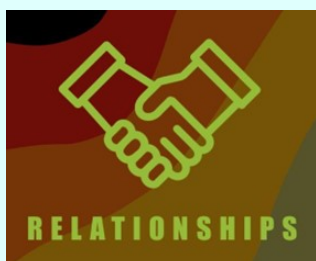

Transition Evenings and Transition Day - 6th July 2022

It was so lovely to see so many of you at the transition evening again yesterday. Thank you very much to Mr Jenner for organising the evening and all of the other staff and students who helped put on activities that students really enjoyed. Miss Pegden has also now almost completed her visits to primary schools and she will then be putting the finishing touches to the plans for transition day on the 6th July where all students will come up to the school for a day of activities. Parents are also invited to a parents evening from 6-8pm on July 6th where they will have the opportunity to meet your child's tutor and ask any questions that you may have. More information on both of these events will be included over the next few weeks.

At The Angmering School, we know that some of the most transformative experiences that we can have in our lives happen at secondary school and it is a real privilege to see the journey that students go on from childhood to adulthood throughout their time here. Alongside the academic curriculum which is taught in subject areas, there are a huge number of experiences that enhance your time in school and that contribute to your long term personal development - The Empowerment Curriculum.

The Empowerment Curriculum has 6 different elements which are woven through lessons, assemblies, tutoring, extra curricular activities, student leadership, trips, visits and many more as well as being incorporated into subject curriculums.

Empower my Relationships

Within our friendships and relationships, students are given the support and tools needed to ensure that there is responsibility for actions, mutual respect and building up resilience for the future.

Empower my Learning

In order to gain the most from lessons, students are given the tools to discover ways in which they learn best, how they can learn independently, how to revise for assessment and opportunities to enhance their learning through practical experience such as curriculum trips.

Empower my Identity

Each student is unique and every individual is celebrated. By promoting tolerance and understanding, students are empowered to explore different elements of their identity and build resilience and courage to have a positive self image.

Empower my Creativity

Every student is given opportunities to think creatively, problem solve, try new creative activities and benefit from the incredible opportunities we have as an Artsmark Gold school.

Empower my Community

We want all our students to give back to our community through student leadership opportunities, supporting school and local community events and guiding school policy through providing feedback and improvements for a better community.

Empower my Future

No matter what your dream for the future is, each student is given meaningful opportunities to explore careers, meet employers, visit further and higher education centres and find out about apprenticeships. The individual advice and guidance that is also in place allows each student to find their way of reaching their potential.

Angmering Calling Summer Festival 2022 - Open Day at The Angmering School Saturday 18th June from 10am to 3pm - everyone welcome!
